Backdraft

Fireman Erotica

Edited by Shane Allison

Firemen rank among the most seductive icons of masculinity. Whether sliding down a pole to put out a fire, polishing their truck, giving special discipline to a horny pyromaniac, or wrapping a grateful survivor in their massive, muscled arms, these men can handle the heat—no matter how hot it gets. In “Dixville Volunteer,” studly Mr. Santomasso’s beefy naked body is the highlight of a firehouse tour he gives inexperienced Andy. In “Smoke and Semen,” firefighter and “black Irish bear” Aidan takes time off his duties to explore the pleasures of submission. In “Unattainable,” Bobby learns how hard it can be to choose between the fetching fireman of his dreams and an equally sexy civilian. The stories in *Backdraft* bring you the steamy side of these working-class hunks.

“His breathing is still shallow and erratic. I plant my mouth over his again and continue to breathe life into him. My left hand lies slightly on his chest, above his nipple. Without thinking, I take the nipple between my thumb and forefinger and squeeze, while my tongue slips in his mouth. His body stirs and he bends his left leg up. My hand crosses his chest and tenderly pinches the other nipple. He groans. I look down the length of his body and see his cock is rock hard. ‘Hallelujah!’ I laugh. ‘He has risen!’ ” —from “Fireman Nick” by Bob Vickery
